

Salient Features

- Bi-directional crease on single pass
- Automatic sheet feed
- Programmable crease positions
- Touch screen for operator interface
- Settable knife and sheet speed for each job
- PLC controlled with remote diagnostics
- Batch production
- Thickness sensor for double sheet detection

Technical Specifications

- Sheet Feed: Manual / Automatic (Platinum / Platinum Plus)
- Creasing: Programmable, punch type - Bidirectional on single pass
- Max Sheet Width: 350 / 520 mm
- Crease Width: 0.1 mm
- Sheet Thickness: 120 – 400 gsm
- Max Number of Creases: 12
- Max Number of Programmable Jobs: 25
- Output: 3800 (A4 in half) per hour
- Mode of Operation: 4" touch panel interface
- Dimensions: 1500 x 600 x 850 mm (L x W x H)
- Weight: 65 kgs
- Power: 500 / 550 W (Platinum / Platinum Plus)
